"Listening to Lenny Mink is like taking a musical safari." -

Ryan Marquez

"Psychedelic Cyrillic Rock Singer / Songwriter? Indeed. Mink's versatility knows no bounds"- *TheHypeThing*

Press Release

Lenny Mink's has two new singles available. "Belarus Blues" (from the upcoming album of the same title) is a powerful statement about the horrors of war and violence and has been cited as sounding like "Mink Floyd".

For a more groovy and funky vibe the new song "Neon Light" offers insight into the creative process itself, along with some pointed personal lyrics.

Mink is prolific and constantly working with his band, solo, and in other configurations.

Artist Bios

Lenny Mink is a consummate and prolific songwriter, composer, producer, guitar slinger and touring artist. Born in Belarus (USSR), son of a sax and woodwind virtuoso, raised on Beatles, Bach, Hendrix, Steely Dan and Top 40 in America's heartland and the birthplace of rock ~ St. Louis.

He performs and collaborates with many artists in "The Lou" and far beyond.

Mink's blends guitar magic and the deep American singer songwriter tradition, with jazz, blues, classical and even electronic soundscapes.

The melodic maestro's songs get stuck in your head, and in your heart!
